

# Displaying Your Sustainability Calendar

4 ideas for how to display your calendar

01  
wooden magnetic  
frame

Display your calendar easily with our [handmade wooden magnetic poster frames](#).

02  
glass or acrylic  
frame

Frame your calendar. Place it on a shelf or on the wall. For glass or perspex frames, you could add extra planning notes, important dates, or decorations on the top surface with a pen.

03  
magnetic  
whiteboard

Using strong magnets to attach your poster to a magnetic whiteboard.

04  
pin to a cork  
board

Pin the calendar to a cork board (this will leave small holes in your poster).

**Please note:** We do not recommend attaching the poster to a wall with Blu Tack or double sided tape. It will likely not hold the weight of the paper and fall down, damaging the poster (and your wall).
